1.0 HISTORICAL DOCUMENTATION OF MILL

1.1 HISTORICAL SUMMARY OF ATLANTIC MILL

The Atlantic Mill was located 50 yards from the Franklin Mill. Reilly and Johnson opened the mill in August of 1863 (*Sacramento Daily Union* 1863:4), at which point it contained two 12-foot-diameter arrastras that crushed three tons of ore per day (Science Applications International Agency, Technology Services Company [SAIA TSC] 1994:130; *Gold Hill Daily News* 1863:3). Gray & Cook leased the mill later that year (*Gold Hill Daily News* 1863:3). In 1865, Treglone & Co. owned the mill while G. W. Cook served as superintendent. The water-powered mill had two arrastras that worked ore from the Gray & Cook Mine (*Gold Hill Daily News* 1865:3; Ansari 1989:91).

The following tables contain the full title history of the Atlantic Mill. After 1864, the Franklin Mill shown as the two properties may have been joined together at this time (SAIA TSC 1993:102-104).

2.9 Atlantic Mill

The Atlantic Mill was located in the SW $\frac{1}{4}$ of Section 34, T16N, R21E. According to Kelly's 1863 Directory, the Atlantic Mill was located about 50 yards from the Franklin Mill (A-4;A008135). The current tax assessor number is 16-151-20. The Atlantic Mill is shown on the Preliminary Location Map of the Carson River Millsites (Map 4). This mill should not be confused with the Bassett Mill located in Seven Mile Canyon, which was also referred to as the Atlantic Mill, or the Atlanta Mill which was located in lower Gold Canyon.

The title history from 1860 to 1868 is derived primarily from relevant portions of the Franklin Mill section of the Dangberg abstract. On October 29, 1860, A. Mesick claimed to have located 4.41 acres (K-2). Almost two years later, on August 18, 1862, A. Mesick conveyed to S.E. Kiler a 1/2 interest in one acre and a quartz mill (K-1).

Kelly's 1863 Directory described the Atlantic Mill as having 2 arastras, and crushing about 3 tons of rock per day. A. Mesick, S. E. Kiler and G. Blust were identified as the owners (A-4;A008135).

On May 30, 1863, A. Mesick obtained a survey of his claim to 4.41 acres, which included the Atlantic Mill arastras (K-2). About a month later, on July 3, 1863, S. E. Kiler conveyed his interest in the one acre and mill back to Mesick (K-3).

On March 19, 1864, A. Mesick conveyed the 4.41 acres, Atlantic Mill and arastras to Mary Tregloan and Martha A. Caldwell (K-4). Within a month, on April 11, 1864, Martha Caldwell and Edwin Caldwell conveyed a 1/4 interest in the Franklin Mill and millsites to W.A. Hoyt (K-5). On the same day, Hoyt conveyed a 1/3 interest in the Franklin mill and millsites back to Martha H. Caldwell (K-6). These and subsequent conveyances of the Franklin Millsites probably included the Atlantic Mill and millsites, because of the proximity of the Atlantic and Franklin Mills.

On October 6, 1864, John Tregloan and Mary Tregloan conveyed a 1/2 interest in the Franklin Mill and millsites to William Johns (K-7). On May 12, 1865, William Johns conveyed to William Sharon a 1/2 interest in the Franklin Mill and millsites, which also was described as a 1/2 interest in the Water Tower Mill, millsites and land belonging to the Franklin Mill Company (K-8).

The June 5, 1865 edition of the *Gold Hill News* reported that the Atlantic Mill was located in Lyon County and was owned by Treglone & Co. It had two arastras and crushed 3 tons per day (B-4;A008572).

On October 3, 1865, Edwin Caldwell and Martha H. Caldwell conveyed a 1/3 interest in the Franklin "Mills" and millsites to Charles M. Cornell (K-9). On March 2, 1866, Charles M. Cornell agreed to sell a 1/3 interest in the "mills" and millsites to E. K. Dodge upon payment of a note (K-10). One week later, on March 9, 1866, E. K. Dodge conveyed a 1/3 interest in the Franklin Mill and millsites to William Sharon (K-11).

On September 7, 1866, William A. Hoyt conveyed the Franklin Mill property to William Sharon (K-12). On February 8, 1867, Samuel A. Chapin conveyed the millsite and water privilege to William Sharon (K-13).

On May 7, 1868, William Sharon conveyed the Franklin Mill and millsite to the Union Mill and Mining Company (K-14). On October 12, 1868, J. D. Fry conveyed the mill and millsite to the Union Mill and Mining Company (K-15).

On December 18, 1869, the State of Nevada issued a patent to William Sharon for SW $\frac{1}{4}$ Section 34, which encompassed the Atlantic Millsite (K-16). There is no record of a subsequent conveyance of this property by Sharon. The Franklin Millsite was assessed to the Union Mill and Mining Company in 1907 and 1912.

On February 29, 1916, the trustees of the Union Mill and Mining Company agreed to sell land encompassing the Atlantic Millsite to Fred Eden (K-17). Two days later, on March 1, 1916, Fred Eden and Laura F. Eden assigned the sales agreement to Alexander Logie (K-17). By the end of the year, on November 29, 1916, the trustees conveyed the land to Logie (K-17) (K-18).

Alexander Logie was assessed for the Franklin Millsite in 1919, 1927, 1928, 1936, 1939, and 1942. M. Serani and M. Sorani were assessed for the land encompassing the millsite in 1919 and 1920, respectively.

In 1939; Alexander Logie conveyed the Franklin Millsite area to Jo. H. Beamer and Randall Larson (copy not ordered). In 1943, as the result of a lawsuit, Louise Scott Beamer conveyed the Franklin Millsite area back to the Estate of Alexander Logie (copy not ordered). In 1950, 200 acres encompassing the Atlantic Millsite were assessed to Alexander Logie.

On March 7, 1968, the administrator of the Estate of Alexander Logie conveyed the Franklin Millsite (described as the SW $\frac{1}{4}$ of Section 34 and the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 34, which included the Atlantic Millsite) to David Lantry and John Mongolo (K-19). Four days later, on March 11, 1968, Lantry and Mongolo conveyed the millsite to Lantry and Andrew Julius Bunkowski (K-20).

On January 23, 1976, David L. Lantry, Andrew Julius Bunkowski, and Rose Marie Bunkowski conveyed the Franklin Millsite to Carson River Development Company (copy not requested). On October 29, 1979, Carson River Development Company conveyed the millsite to Tibor W. Fejer and Lorin O. Montgomery (K-21). On June 14, 1985, Fejer and Montgomery conveyed the millsite to FX-6 Personal (K-22). On that same day, FX-6 Personal conveyed the millsite to FX-6 Personal (K-23).

ATLANTIC MINE

THE EVENING NEWS

Editor of the Daily Evening News.—The following is a copy of a communication to the editor of the *Advertiser*, of New York, from the author of the article on the "Atlantic Mine," published in the *Advertiser*. The author says he stated that the Atlantic mine was the best in the State, and that it would be a great source of revenue if properly developed. He also said that the mine had been worked out, and that the author of the article had been deceived by the author of the article on the "Atlantic Mine." The author of the article on the "Atlantic Mine" has since admitted that he had been deceived by the author of the article on the "Atlantic Mine."

Mills in Lyon County.

Believing that a list of the mills of this county, with a brief note of their capacity, would be interesting to the readers of the *Sentinel*, both at home and abroad, below we present such a list in as condensed a form as possible. Two or three of the mills were not running when we visited them, and we are therefore unable to furnish the particulars in connection therewith. We will refer to such at some other time. The business of these mills would make a very handsome footing up at the end of the year.

Bethel Gate Mill—Henry & Co., proprietors; Bates, Henry, Superintendent; steam power, twelve stamps, ten pans; ten hands employed; four cords wood used per day; eight tons quartz crushed per day.

Pioneer Mill—Sheldon & Co., proprietors; J. A. Todman, Superintendent; steam power, fifteen stamps, twenty-seven pans; twelve hands employed; four and a-half cords wood used per day; twenty-two tons quartz crushed per day, from the Alleghany mine.

Sherman & Co.'s Mill—Sherman Bros., proprietors; Sherman & Bovee, Superintendents; water power, five stamps, two pans; two hands employed; one cord wood used per week; four tons quartz crushed per day, from the Occidental mine.

Eagle Mill—R. T. Mullen, proprietor and Superintendent; water power, five stamps, two pans; two hands employed; one cord wood used per week; two tons quartz crushed per day, from the Overman mine.

Bacon Mill—Bacon M. & M. Co., proprietor; W. F. Johnson, Superintendent; steam power, twenty stamps, seventeen pans; fifteen hands employed; six cords wood used per day; thirty tons quartz crushed per day, from the Bacon mine.

Sparrow & French Mill—Trench & Co., proprietors; D. L. Hastings, Superintendent; steam power, twenty stamps, fifteen flat and two Wheeler & Rendal pans, seven more of which will be added in a short time; fifteen hands employed; six cords wood used per day; thirty tons quartz crushed per day, from the Spender & French mine.

Gold Canon Reduction Works—Collins & Co., proprietors; steam power, twenty stamps, sixteen pans.

Bartoli Mill—Eight stamps and eight pans.

Eastern Slope Mill—Ed. McLean, proprietor; C. W. Tozer, lessee; L. Hudgin, Superintendent; steam power, sixteen stamps, (with a working capacity of twenty common size) six pans; eleven men employed; five and a half cords wood used per day; twenty tons quartz crushed per day, from the Challege mine.

Phoenix Mill, No. 1.—J. C. Corey, lessee; A. K. Vanderveer, Superintendent; steam power, sixteen stamps, six pans; twelve men employed; four and a-half cords woods used per day; twenty-two tons quartz crushed per day, from the Crown Point mine.

Phoenix M., No. 2.—Under the supervision of the same parties as the Phoenix No. 1; twenty stamps, thirty-four pans; eighteen men employed; six and a half cords wood used per day; thirty tons quartz crushed per day, from the Crown Point mine.

Susanna M.—J. Tregloan, proprietor; Sam Johns, Superintendent; steam power, fourteen stamps, twenty-two pans; ten men employed; five cords wood used per day.

MILITARY garrisons have been established at Gallatin and Brookhaven, Miss., for the protection of the people, who are enjoined to be peaceable. All persons remaining in arms are declared to be outlaws.

GATHERS THEM IN.—The pensioners of the old Revolution have got down to four. Death has packed all the rest off on his body back, and set them down in Heaven.

JOSH BILLINGS says, "a reliable set of bowels is of more value than any quantity of brains."

Dr. J. F. Gibbons.—This celebrated physician has returned to San Francisco after an absence of a year, during which time he has visited the prominent hospitals in the United States, England, Ireland, Scotland and France, and having carefully studied the different modes of treatment in these establishments, comes back with full knowledge as to proper adoption of them in in the effecting of cures here. He has resumed the practice of his profession at No. 617 Kearny street, where his old patients will find him, and those who are suffering from ills which his practice will allow him to cure. His card will be found in another column.

The Remarkable Properties of Brown's BRONCHIAL TROCHES have been thoroughly tested since first introduced. The demand for them has steadily increased, and purely upon their own merits they have found favor with those who, from Pulmonary, Bronchial or Asthmatic complaints, require them. For Congies and Colds they are efficacious.

property? It is a nuisance which it stands and should be removed by the most expeditious legal means, and no other." When our city authorities find out what is the matter we hope that the wrong, whatever it is, may be righted "by the most expeditious legal means, and no other." Such is our prayer. Let our authorities do nothing except by the "most expeditious legal means." Let there be no irregular proceedings against said building. The days of the "Vigilantes" are past. Its being advertised "to rent" is of course against the building, yet keep cool and proceed only by the "most expeditious legal means."

FROM LONE PINE.—We were yesterday shown some very fine specimens of ore from Lone Pine, Inyo County, California. The majority of the specimens are argentiferous silena, but very rich in silver—so rich as to wholly destroy the regular galena crystallization. Among other curious mineral specimens was a large piece of asbestos, so pure that it could be twisted into strings. This mineral has been tried by the Mexicans in making (mixed with clay) for furnaces, but it does not seem to answer the intended purpose as well as bone ashes, which is now generally used.

Upon the reading of "Pretty Sight" an evening cotemporary says: "What is? Why, a ship under full sail, or (we'll skip the sailor's second), a train of cars in motion, or—next to 'em—the stages of Wells, Fargo & Co.—three six-horses coaches—rolling out of Virginia at 6 o'clock every morning. They prance forth like. You take notice. We would advise the practical author of the above to soak his head for a month or two. They prance forth like. Good heavens!

IN OPERATION.—At present we do not know of an idle mill in the State. All are at work, and there is ore for all. Many of our leading mills are increasing their capacity, and on every side are to be seen signs of the prosperity of our young State. It is not only in mills, but in every branch of trade and industry, that we see improvements throughout the city. Business houses are being enlarged and refitted, and new houses are daily being opened.

The Gold Hill Fair.—The Fair in Gold Hill, given by the ladies of St. Patrick's Church, is proving to be a most successful feature. The ball is crowded nightily, and there can be but little doubt that a sum sufficient to liquidate all the debts standing against the church edifice will be realized. It will continue during the week and will wind up in a grand ball next Monday night. Let our people go down and assist their neighbors of Gold Hill.

BLACK CROOK.—The attendance at the Crook last night was good, and a high old performance was given. All kinds of fun—songs, dances, juggling, acts, and farces. No restriction upon anybody; lager beer drinking and smoking allowed, and all given the liberty of moving about and singing and doing pretty much as they please, so long as they do not interfere with the enjoyment of others. The bill for to-night is an excellent one.

INSURE AGAINST ACCIDENTS.—Go to Sprosser, Gould & Curry office, and be insured against accidents. In case you are hurt after being injured you get a liberal weekly allowance until you are able to work. This is better than insuring your life, for once you are dead the money of the insurance companies will be of mighty little use to you. They can give you no checks that will pay for grub in that "bounce from whence no traveler returns" to curse his master.

BUCK CAGOG.—The Crook still keeps on the even tenor of its way with a large troupe of melodrama actors and actresses, introducing new features almost nightly. The place is devoted to fun and all is free and easy throughout. A fine bill will be presented this evening.

NEW BOILERS.—The Yellow Jacket Company have just received and will at once fit up two new boilers, each 16 feet in length by 34 inches in diameter. Each boiler contains 50 three-inch tubes. The boilers were manufactured at the Pioneer Boiler Works.

The omnibus line plying between this city and Gold Hill is being well patronized this summer. Our people all seem to have made up their minds that it is much cheaper to get two bits for a ride than to walk during the hot weather.

NOT SO.—There was a report on the streets last evening that a miner in the Chollar-Potosi had been caugt on and fatally injured. On tracing the matter up we found that a workman in the mine had sprained himself, & gave no smashing of bones!

OVERHAULING.—The Kentuck Company are engaged in overhauling their hoisting works. They are putting in new reels, repairing their shaft, and putting everything in order for a long siege of heavy work.

LOW FARE.—The old line of Dayton stages leaving that town in the morning charges but four bits to this city and intermediate points. Nobody can complain of this as extortionate.

OUR MARKETS ARE WELL SUPPLIED WITH APPLES, PEARS, PLUMS, PEARLS, GRAPES AND EVERY OTHER KIND OF FRUIT NOW IN SEASON—MELON AND MUSKMELON ARE ALSO PLenty.

FOR SUNDAY ACCOMMODATION.—After this date the stage office of Wells, Fargo & Co., will be open on Sundays from 2 to 4 o'clock P.M. for the accommodation of those wishing to secure seats in the stages to California.

THE CORO GORDO RUINS ARE STILL WELL SPOKEN OF. Particulars who left this city a few weeks since to look after interests in various lands in that section express themselves as being perfectly satisfied with their miseries.

KNIGHT teams, loaded with merchandise for our business houses, continue to throng our streets. Our merchants appear to be determined to take time by the forelock this season.

TELEGRAPHIC.—There are messages at the Telegraph office for the following persons: Michael Kelly and C. Morales or Lottio Morris.

NEW APPOINTMENT.—Mr. A. Baker has been appointed route agent for the western division of the Overland Stage Company's line.

LARGE QUANTITIES OF WOOD ARE NOW COMING INTO THE CITY FROM WASHOE. Ten cords to one ton is a load by no means unusual.

ALL OUR MILLS ARE NOW AT WORK DAY AND NIGHT, AND WE HEAR NO COMPLAINT OF A SCARCITY OF WOOD.

DAVIS & LANNAN.

HAPPINESS OR MISERY?

THAT IS THE QUESTION.

THE PROPRIETORS OF THE "PACIFIC MU-

SEUM of Anatomy and Science" have deter-

mined, regardless of expense, to issue FREE (for

the benefit of suffering humanity) four of the

most interesting and instructive lectures on

Anatomy, and its disqualifications: Nervous

Obility, Preparatory Decline of Manhood, Insti-

gation, Workless, Depression, Loss of Energy

and Vital Power—the Great Social Evil, and the

maladies that result from youthful follies, ex-

cesses of maturity, or Ignorance of Physiology

and Natural Law.

These invaluable Lectures have been the means

of enlightening and saving thousands, and will

be forwarded each on receipt of Twenty-five

Cent in postage stamps, on addressing "Scien-

tific Pacific Museum of Anatomy and Science,

Montgomery street, San Francisco."

Letters to be sent through Wells, Fargo

& Co.
